24/7 Flax

24/7 Flax is an intuitive progression of our popular 24/7+ range. Continuing our pioneering work with bast fibres, 24/7 Flax incorporates a blend of wool and flax fibre to enhance the sustainability credentials of the fabric whilst maintaining the robust technical performance. Ideal for 'heavy duty' contract applications the fabric is inherently flame retardant to Medium Hazard level without post-treatments. The combination of flax yarn and crepe weave creates coloured highlights and intriguing texture.

Indoor Advantage Gold

The SCS Indoor Advantage certification program, developed by SCS Global Services (SCS), is an air quality certificate designed for interior building materials, furnishings and textiles. The indoor Advantage Gold standard aligns with both ANSI/BIFMA M7.1 and X7.1, and CA 01350. It qualifies for many building rating systems, including LEED v4, BREEAM, WELL Building, and Living Building Challenge.

Mindful Materials

mindful MATERIALS (mM) is a free platform with aggregated information on human health and environmental impacts for products from leading manufacturers, vetted by experts passionate about making it easier to make informed product choices.

Aquarius

Aquarius is a tried and tested, versatile crêpe weave fabric that is suitable for task chairs and soft seating. It's made from 100% natural wool, which is not only rapidly renewable but also fully bio-degradable. The colour palette offers a great balance of subdued organic shades and confident brights.

Indoor Advantage Gold

The SCS Indoor Advantage certification program, developed by SCS Global Services (SCS), is an air quality certificate designed for interior building materials, furnishings and textiles. The indoor Advantage Gold standard aligns with both ANSI/BIFMA M7.1 and X7.1, and CA 01350. Armadillo

Armadillo is Spanish for “little armoured one” – the super cute, armour-coated, roly-poly mammal. The fabric echoes these traits in a tough, confident, quirky combination, sporting a subtle weave pattern to create balance through colour, texture and construction. Visual flecks from the wool flax yarn bring personality and charm to this flexible textile. Designed by Jens Risom. Reimagined by Camira.

Blazer

Blazer is a classic pure new wool upholstery fabric with a billiard cloth felted finish. It is made from premium New Zealand lambswool, where responsible farming provides the highest quality raw material which is soft, clean and bright, which is ideal for spinning, weaving and dyeing. The colour palette is an exciting mix of solids and mélanges across the full colour spectrum, creating a versatile fabric suitable for wide-ranging furniture applications.

Craggan

Influenced by the powers of nature, Craggan emanates a rugged landscape weathered by the elements and accented by touches of bright flora among barren moorland. This rich woollen fabric is enhanced by a delicate highlight shade that sits quietly in the background of this simple chunky weave creating a raw, yet inviting upholstery fabric.

Indoor Advantage Gold

The SCS Indoor Advantage certification program, developed by SCS Global Services (SCS), is an air quality certificate designed for interior building materials, furnishings and textiles. Gravity

Gravity adds weight to seating through its attractive, geometric lightly textured patterning. The fabric contains our innovative “closed loop” recycled polyester, which is derived from our own yarn and selvage waste, upcycled into yarn, then dobby woven and piece dyed. The end result is an intriguing, two-tone upholstery fabric with subtle surface interest, style and beautiful simplicity.

Indoor Advantage Gold

The SCS Indoor Advantage certification program, developed by SCS Global Services (SCS), is an air quality certificate designed for interior building materials, furnishings and textiles. The indoor Advantage Gold standard aligns with both ANSI/BIFMA M7.1 and X7.1, and CA 01350. It qualifies for many building rating systems, including LEED v4, BREEAM, WELL Building, and Living Building Challenge.

Oeko-Tex

The STANDARD 100 by OEKO-TEX® is a worldwide, independent testing and certification system for textile products. The scientific based certification process, which tests for substances which are harmful to human health, is based on rigorous test methods, test criteria and limit values, which in many cases go far beyond applicable national and international standards. Robust testing from all stages of production means that OEKO-TEX® contributes to high and effective consumer product safety.

Main Line Flax

Main Line Flax is the natural progression of our all-time favourite Main Line Plus fabric, building on our industry-leading bast fibre expertise to create a new inherently flame retardant fabric from sustainable sources. A symbol of purity, wild flax has been used in textiles for thousands of years thanks to its strong, long and smooth fibres found inside the stem of the plant. The fibre is spun into a 70-30 wool flax blend, then fibre-dyed to create beautiful mixture yarns which are woven into interesting solids and cross-colours inspired by the rich tones of rare jewels.

Indoor Advantage Gold

The SCS Indoor Advantage certification program, developed by SCS Global Services (SCS), is an air quality certificate designed for interior building materials, furnishings and textiles. Patina

Only by taking a deep breath and slowing down do we become aware of our surroundings and the Pattern in Nature is revealed to us. Patina is designing with nature to achieve beauty with performance. The white flecks scattered across the surface are created by the flax content, just as the flowers would appear in the fields from which it is grown. The palette takes its cues from nature and has been carefully balanced to include shades which both enhance and blend seamlessly with other fabrics in the Camira portfolio. By allowing its natural beauty to shine through, we've ensured that Patina is truly at home in its new habitat - the office.

Silk

Silk is a beautifully constructed dobby weave fabric created with a three tone tweed effect, rich with rustic charm. Made from a blend of three natural fibres: silk, flax and wool. This product has a fantastic eco-story, a luxuriously soft handle and is inherently flame retardant. The silk element is recycled content derived from 'noils' which are the short fibre waste remnants from the combing process before spinning. The fabric offers a colour palette of muted pastels with brighter highlights.

Indoor Advantage Gold

The SCS Indoor Advantage certification program, developed by SCS Global Services (SCS), is an air quality certificate designed for interior building materials, furnishings and textiles. Information on contribution to other green building schemes is available.

Manufacturing

Manufacturing Location – Huddersfield, United Kingdom

- Facility systems – ISO 14001, ISO 9001, OHSAS 18001
- 0% Waste to landfill

X2

X2 provides stretch, flammability and abrasion performance in an unobtrusive background grey mélange effect. The subtle dark tones create texture and dimension within a playful colour palette of brights through to subtle neutrals. The mottled appearance is also a practical solution to aid appearance retention.

X2 was our first 100% recycled fabric to include closed loop content. 25% of the raw material is derived from our own waste streams, specifically polyester selvages and yarn remnants.

Indoor Advantage Gold

The SCS Indoor Advantage certification program, developed by SCS Global Services (SCS), is an air quality certificate designed for interior building materials, furnishings and textiles. The indoor Advantage Gold standard aligns with both ANSI/BIFMA M7.1 and X7.1, and CA 01350. It qualifies for many building rating systems, including LEED v4, BREEAM, WELL Building, and Living Building Challenge.

Oeko-Tex

The STANDARD 100 by OEKO-TEX® is a worldwide, independent testing and certification system for textile products. The scientific based certification process, which tests for substances which are harmful to human health, is based on rigorous test methods, test criteria and limit values, which in many cases go far beyond applicable national and international standards. Robust testing from all stages of production means that OEKO-TEX® contributes to high and effective consumer product safety.

EU Ecolabel Certified

The EU Ecolabel helps you identify products and services that have a reduced environmental impact throughout their life cycle, from the extraction of raw material through to production, use and disposal. Recognised throughout Europe, the EU Ecolabel is a voluntary label promoting environmental excellence which can be trusted.

Xtreme

Xtreme is a modern crepe weave fabric made from 100% post-consumer recycled polyester, diverting waste from landfill and saving virgin raw materials. Its stretch properties, coupled with high flame retardancy, durability and non-pilling properties make Xtreme an ever popular fabric for task seating.

Indoor Advantage Gold

The SCS Indoor Advantage certification program, developed by SCS Global Services (SCS), is an air quality certificate designed for interior building materials, furnishings and textiles. Yoredale

Taking its name from the ancient title of Wensleydale in the UK, Yoredale is a fabric steeped in heritage. A highly textured textile with undulations reflective of its Yorkshire roots, its fascinating bouclé style yarn includes a contrasting black binder, creating subtle details within the weave that brings added depth to its saturated tones. Woven from British wool, Yoredale is truly timeless, blending its rich history with a contemporary appeal.

Zap

In just one word Zap describes this upholstery fabric. It packs a real punch thanks to its vibrant, clean, saturated, comic book, jelly bean colours. Zap has the softness of young wool, the toughness of a steel watch spring. Zap is incomparable wherever super-wear is desired with colour impact, excitement, interest. Zap is a now and future fabric. Designed by Jens Risom. Reimagined by Camira.

Cara

Cara is a plain weave panel fabric available in a wide selection of commercial colourways. One of our most popular vertical surface fabrics, Cara is used extensively on desk screens, wallsides and on pin boards.

This fabric is largely acoustically transparent and as such is ideal to be used as a decorative facing for sound absorbing boards.

Carlow

Carlow echoes the calm, gentle landscape of its Celtic namesake in rural Ireland. The fabric, like the county, invites you to escape into a place of tranquillity, discovering and exploring its hidden gems scattered throughout a vibrant textile tableau. This dobby weave panel fabric is brought to life in brave and intriguing colour mixes which can be teamed with our most popular upholstery fabrics as well as its panel partner Cara. Carlow is acoustically transparent, making it ideal as a decorative facing for sound absorbing boards.

Lucia

Lucia is an ever popular crêpe weave synthetic panel fabric. It's manufactured from 100% recycled polyester saving virgin raw materials and giving a reduced environmental footprint. With a non-lustrous appearance, its bold and bright colour palette is designed to complement the Xtreme range for upholstery. This fabric is largely acoustically transparent and as such is ideal to be used as a decorative facing for sound-absorbing boards.
